About the BioRN Academy

The BioRN Academy is the academy for management and leadership skills in life science. The program includes an MBA Life Science, a Master of Business in Life Sciences, trainings in management and leadership skills as well as trainings in business planning and start up management.

Interested scientists and students from the life sciences should contact us to be kept up-to-date on the various activities of the BioRN Academy.

Developing Life Science Specialists into Top Managers

Career Development Center (CDC)

Our Career Development Center (CDC) focuses on the identification and career advancement of high potentials. Benefits offered: Accompanying career coaching; mentoring by upper level managers from the biotech cluster. The CDC is addressed to postgraduates from life sciences with first professional experience. The Pilot CDC starts in Autumn 2010.
