

# Together against Covid-19 Pandemic

**BioRN Member interested in cooperation:** European Vaccine Initiative

**Member Profile:** <https://www.biorn.org/member/European-Vaccine-Initiative---EVI>

**Contact Person (Name and Position):**

- Dr Stefan Jungbluth, Head of Business Development
- Dr Nicola Viebig, Chief Scientific Officer

**What can we offer:**

- A fully equipped project management office
- Expertise in pre-clinical and early phase clinical development of vaccines, incl. support with setting up e.g. pre-clinical assays, GMP manufacture, clinical trials
- A global partner network consisting of Academic Institutions (public and private), Vaccine Companies (human and veterinary vaccines, big pharma, SMEs, CMOs, CROs), Regulatory Agencies, etc.
- High Quality Technical Services to support the development of vaccines through the H2020 funded TRANSVAC2 project ([www.transvac.org](http://www.transvac.org))
- Training on various aspects of vaccine development either directly through EVI (please enquire) or through the H2020 funded TRANSVAC2 project ([www.transvac.org](http://www.transvac.org))

**What are we looking for:**

- Collaborators who are interested in partnering with EVI for the development of a Covid-19 vaccine
- Organisations in need of technical services and training
