What can we offer:

The COVID-19 pandemic continues to disrupt and effect businesses and individuals around the world. As experts in temperature-controlled and compliant sample transport packaging, we have increased our stock levels in the face of unprecedented demand and are available to support our customers however required.

Whether you're collecting or shipping samples for Covid-Testing or even involved in the vaccine distribution, Intelsius' varied product range has the answer. As an ISTA-certified laboratory, Intelsius precisely designs, tests and qualifies packaging systems based on the external temperature extremes your product will encounter developing solutions that you can rely on.

Contact us now to discuss your specific cold chain and specimen transport requirements!
